Starting and Facilitating Innovation Technical and Institutional Innovation Platforms (IPs) **Technologies and Starting IPs** Innovations Analysis & sensitization of Demand driven innovation stakeholders generation Analysis of constraints and Catalyzing technology/ entry points innovation dissemination **Building technical Development of IP** competence & skills of IP governance structure actors Action planning Facilitating information and knowledge sharing **Facilitating IPs** Entrepreneurship Identification of IP Development facilitators & champions Entrepreneurship Building soft skills of IP development models facilitators & champions Agribusiness skills development Holding innovation clinics Youth & women Facilitating policy and entrepreneurship institutional change development Facilitating good governance Facilitating access to finance of the IPs & handholding Information, Knowledge Sharing and Learning

Framework for capacity building of IP actors in the rice value chain

Sidi Sanyang, Josey Kamanda, Esperance Zossou, Abiba Oumar Moussa

Learning and Reflection

Research on IPs &

innovation process

Institutional analysis of rice

value chains in hubs

Analyzing conditions for

success in IP implementation

Analyzing determinants of

innovation adoption

Qualitative & quantitative

data collection

Documentation of outcomes

from IP implementation

Publication of evidence- case

success stories

Outcome Monitoring
